***Allowable Subject Matter***

Claims 1-3 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance:

Claims 1-3 are allowed because the examiner found out that applicants' argument in the Remarks filed on 6/19/07 is persuasive. Applicants argued that the reference Ishioka et al ('573) uses a selector 23 selects, by switching, the appropriate one of the probes 22 for outputting the electrical signal which is different from the amended moving unit for performing sequential inspection of the printed circuit board (see page 3, paragraphs 2 and 3 of the Remarks). Applicants also argued that the reference Okawa Shinichi ('214) does not teach or reasonably suggest a moving unit that sequentially performs measurement on the measurement points which it moves above the printed circuit board as recited in the claim 1 (see page 4, paragraph 1 of the Remarks).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
